

COME SEE US

at the CIM Convention, Vancouver

Sunday May 6 to Tuesday May 8

Booth #1047

Learn how we can significantly reduce the downtime of your operation by engineering a custom Abreco® Wear System tailored to meet your specific needs.

Wear Products

Beginning at our own foundry, all Abreco® Wear Products, castings and wear components are proudly designed and manufactured in Canada.

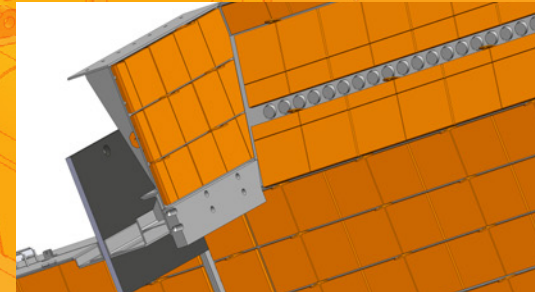

Wear Pipe

AbrecoPipe®, the first and only centrifugally cast, bi-metallic white iron pipe that is UT testable and capable of being formed into long radius elbows. The ultimate solution for your severely abrasive slurry.

Visit us at the show and speak to us in person to find out how we can ensure minimum downtime and maximum profits for your operation.
